PATRIOT SIGNAGE®, INC. art specs

Patriot's art department can create your art and e-mail for your approval. There is a \$75 charge. To customize a "stock" Patriot design, \$35 will be charged.

Customer supplied art should be in proportion to the size of the product ordered. Please note all products have a 3/8" white border around the perimeter with the exception of Lapel Stickers, Car Magnets, Door Hangers, and Vinyl Banners which can be a full bleed.

ARTWORK:

We accept Adobe Illustrator, PDF files created from editable files and most generic editable EPS files. Before saving files to any of these formats the files must be editable and text must be converted (curves, paths or outlines). Please check with your Patriot Signage Customer Service Representative to ensure compatibility of programs and formats. All placed images (logos, photo, etc.) must be included. Please DO NOT make a PDF or EPS file from a JPEG, TIFF, GIF, etc. as this is simply a link and not an editable file. If you have any questions, please talk to your Patriot Signage Customer Service Representative before e-mailing any art files. **ART FILES OVER 3MB SHOULD BE UPLOADED TO WWW.PATRIOTSIGNS.COM. ART FILES UNDER 3MB CAN BE EMAILED.**

STANDARD AND SPECIAL COLORS:

Patriot Signage uses the Pantone Matching System (PMS) and offers 20 standard colors (see color chart). Custom PMS colors are also available for most Patriot products for an additional charge. Please contact your Patriot Signage Customer Service Representative for pricing. COLORS will vary when comparing one substrate (paper) with another substrate (plastic). Patriot makes every effort to provide anticipated results from PMS colors specified but cannot guarantee exact matches. Special ink matches typically add 3-4 business days to the standard production schedule.

TINTS (Screens/Tones):

Utilizing a percentage screen or tint of a color is not recommended but if required by the customer, the tint may (or may not be) treated as a separate color and incur an up charge. Patriot Signage cannot guarantee the even intensity and consistency of the tonal value. These tints are printed at the customer's risk. Consult with your Patriot Signage Customer Service Representative before proceeding with your order.

PHOTOGRAPHS:

Reproduction of photographic images may (or may not) be treated as a separate color and incur an up charge. Consult with your Patriot Signage Customer Service Representative before proceeding with your order.

SEPARATE IMAGES:

Different images may be printed on each side of your sign but will incur an additional charge. Consult with your Patriot Signage Customer Service Representative when placing an order.
